

### 5.3.1.3 Packet Tracer Answers

Download

February 17, 2018 - this task is optimized for viewing PDUs. The devices are already configured. You will collect PDU information in simulation mode and answer. I love this screen showing information about PDU tasks because it means I can see which devices need to be configured. It's very simple, but in essence, I want this screen to become permanent and show only this screen (no more additional information screens needed, just the same). On this screen, I want to be able to see how many devices are connected and how that number changes as more devices are added.
