ClipDrop With License Code PC/Windows

What's New In ClipDrop?

This is a small easy to use GUI tool that can be used to quickly capture your most recently copied/pasted clippings from the system clipboard. There are several variations to choose from and we hope you enjoy this one. Click on the widget to download

Quickslide is a simple and easy to use application which let's you view and interact with all of your recent pictures from you digital camera. QuickSlide's main feature is that it automatically manages your photos, letting you sort them by date, time, title, folder and filename, but it is also a photo viewer allowing you to view your photos in many different ways. You can view them in slideshow mode, on top of each other, in picture frames, in different sizes and in high resolution. You can even use the program as a small photo editor if you so desire. A few other features include a day/night theme, changeable background color and wallpaper, and a limited number of custom picture editing tools. Requirements: 1. You must have at least 256 MB of RAM 2. You need to have the MSIE 5.x browser 3. You need the Windows WMP 6.x compatible codecs 4. You need to have the Windows WMP 6.x compatible codecs You can download the program from the following website: Enjoy!

Reapix is a drag-n-drop preview tool for your original images and graphics. It can be used as a light photo editor, a simple photo viewer, a slideshow viewer, as well as a network remote previewer. All images viewed in Reapix have their original background colors retained. You can either preview or upload your original graphics to the web, or you can simply drag-n-drop your pictures into Reapix to view them. Requirements: 1. You need to have the Microsoft Internet Explorer 5.x browser 2. You need to have the Microsoft Internet Explorer 5.x browser 3. You need to have the Windows WMP 6.x compatible codecs You can download the program from the following website: Enjoy!
