Play Room 0g is a sandbox 3D game that plays like an FPS but has no gravity, no bullets and no score. If you like FPS games but don't like the traditional style, Play Room 0g is for you. You can explore a large room and move around freely; however there are some things you can do. As you interact with the objects you can fire rubber balls and use other weapons. The game is simple to pick up and play but has some depth if you want it. Play Room 0g is a great game for kids, tweens and teens! You can download Play Room 0g from the Google Play Store for free. Many thanks to Shigeta, Gray_Prince, do, D_J, Shander, and makin'iregular for their help with this build! // // Component animations // ----- // Heads up! // // We don't use the `opacity()` mixin here since it causes a bug with text // fields in IE 7-8. That's when physicians noticed an abnormality in the results from his blood-pressure test, saying that his heart was beating at a rate of 188 beats per minute. It was not the end of the problem, however, as

Furyzling is a dark fantasy RPG set in a fantasy kingdom, where humans and orcs coexist. Story takes place in the area of the Kingdom of Druz, a kingdom nearby a forest known as the Grassy Meadow. The small forest is known for being overgrown with greenery. It is a place of life and peace, that is unfortunately broken when the murder of a young man from the kingdom causes a revolution. It is up to the Elsir's, a group of adventurers, to put an end to that. Take the role of one of four Elsir's (Warrior, Magician, Thief, or Priest), choose your starting class, then explore the world of furyzling. A self-sufficient side quest system and 16 classes gives you endless possibilities to create the characters, items, and quests you desire. Key Features: CLASSES: Experience the many different classes. The 19st character you create is yours to command. STORY: Enter the world of Elsir, a group of adventurers made up of main character classes, and small groups of side quests. Discover the many different paths you can take in the story, each having their own unique goals, ending and design. LUNAR ECONOMY: Discover the economy of a 'Luna Kingdom' that is divided into three different groups: Human, Orc, and Undead. Each group can be controlled by its own administrator, you can have an economy that caters to their needs. THEMES: Two types of themes are included, each with four or more themes of their own: Normal, and World. The Normal theme has around 20 different sub-themes to explore, while the World theme gives you a mini game as your main quest. Additional notes about the story: Inside the game is a non-linear quest structure that makes it easy to have as many paths as you want. An overworld map makes it easy to navigate the world as you explore. Biography: I've been making indie games since I was a kid and I love it. I've been programming on my own since 2006. With the indie scene blossoming more and more and with many videogames being released on Steam and other digital stores, I decided to create one. The Luna Engine's first version was released in 2012. We recently released Luna Misc as an ad-hoc package including all our most useful scripts. It allows you to use this engine even with scripts in c9d1549cdd

Combat Racers is a fast-paced multiplayer local co-op multiplayer shooter. You drive your own customized car and try to outmaneuver and outgun your opponents in order to win. It's all about quick reactions. Features: Local Multiplayer: Two to four players locally Customizable vehicles: Unlock cars with special abilities Jets, drones and rockets - anything can be used in a devastating way Weapon loadouts: over 2000 variations Multiple game modes: race, head-to-head, survival, mayhem Survival mode: The last survivor is the winner Challenge mode: Make as much money as possible to unlock new cars Fast-paced gameplay: Accelerate through checkpoints to gain advantage Gameplay Choosing a weapon loadout in Combat Racers is really important. Each weapon has a specific role that can be executed via various mechanics. For example, the shotgun, the most basic weapon, can be used to stun or kill, but also to damage the car in which it's mounted. Therefore, you have to adapt your loadout for your specific playstyle and skill level. Front Weapons There are two types of front weapons. Each of them can be mounted on one side or both. As soon as you pick up a weapon, your hands will automatically adapt to hold the preferred side. Weapon - shotgun The shotgun is the most basic weapon. It's made for one-shot kills. Its range is short and when you fire the shell, it will scatter in all directions. This makes it an excellent weapon for breaking your opponents' line of sight and creating distance for your next move. However, you can also use it to damage your car, which will in turn endanger your position on the track. Shotguns are very effective against opponents that do not dodge your shots. Your task is to advance on your opponents without getting hit or damaged yourself. As soon as your opponents try to dodge one of your shots, you can use the distraction to open a gap. Fire the shotgun by pressing A or R when close to your opponent. You can switch between shotguns by using the D-Pad. A second shot can be executed by holding the fire button again. Sub Weapons: - The railgun is a continuous shot. It is mainly used to damage your opponents or make them crash if they are too close. A second shot can be executed with the reload button. The railgun is great for catching
