Get D'Accord iChords 2.0 for Free download from here.Q: How to add selected item of combobox on listbox in wpf I want to add selected item of combobox on listbox on click event of button. I bind selected item on label, but if i select 2 items in combobox, only last one is binded to label. How can i do this? EDIT: Model: public class Descriere { public string Id { get; set; } public string Name { get; set; } } public class Desc { public List Descriere { get; set; } } A: You can't bind SelectedItem.Name to Label due to the fact that there is no "name" property on Descriciune class.
