In I AM DIE, the power lies in using the clear rules to your advantage. No skill needed! Form a line from left to right. The first person to cross the line wins the game. If you don't know how to roll the dice, you shouldn't play the game. For everyone else, challenge your mind, dexterity, and reflexes as you play through the series of twisted levels that each require careful manipulation of the ball to keep its progress FAST and your roll-score LOW! Do you like puzzle games? Then you'll love I AM DIE! [vintage retro style] Help the ball cross the line! The rules are as follows: - You roll the dice. - Your roll gets smaller as you progress - If it gets too small you pass and the next player in line takes his turn. - If the ball rolls too far, it goes back to the start! - You can optionally press a button on the left side of the screen to speed up the ball as it rolls, or the right to slow it down. - You win if the ball crosses the red line before someone passes the line. Screenshot: If it's a colour picture, it's a low-res version of the full-screen size. If it's a black & white picture, it's for dummies. Anything you don't understand, ask me! Otherwise, enjoy this game! This is the first version, so if you encounter any issues, please let me know. Story/Universe: "In this game the rules are simple: 1) You roll the dice. 2) Your roll gets smaller as you progress. 3) If it gets too small you pass and the next player in line takes his turn. 4) If the ball rolls too far, it goes back to the start! 5) You win if the ball crosses the red line before someone passes the line. Using the rules is the way forward. Once you've learnt the rules, you'll find that you'll need to keep the ball rolling as quickly as possible." So there you go! Now go and play the game! It's free to try it out, and also free to submit your ranking details. Want more game I AM DIE?: c9d1549cdd
