Online Codes Generator. Cheats are good for being able to get free robux and other goodies. How do you get these in game? Here are some of the things you can do. 1.) Fly Around Levels If you are in the food creation mode, simply press R and fly around a level. That's it! 2.) Get Robux in In-Game The simplest way to get robux is to find some seeds. If you get a seed, go into the garden and plant it. The plant grows and turns the round 2 in-game currency. Keep these seeds in your inventory so you can plant them later. When you find a seed, right-click and select "Seed.x, where x is the amount of seeds you want to add. Note: 1 seed = 1 round of robux \*If you run out of seeds, right click your inventory to pull more up from the world. 3.) Cloning Hacks You can make some interesting hacks. There are two parts to cloning: Design the clone (move / scale, slashes, texture, etc) - This is the most important part. Setup the hack - This adds functionality to your clone. First off, design the clone. Place it where you like. Make sure it is high enough, but not too high or you will have to deal with AI. You can now resize the clone. Select the parts you want to move and scale (scale = +) or rotate (rotate = +). Move the clone where you like, you can even place it in your inventory. Add slashes if you want. To remove the slashes, right click the clone and select remove slashes. You can now Setup the clone. If you want the clone to react like a pig, add a pig mode. Here are some options to chose from: Finger (only use a portion of the clone) Blue (flippers) Regular (no modifications) So what do you do once you have your clone? If you want your clone to eat, add a move mode. This adds motion to your clone. Move you clone where you want it to go. Now you need to add any other plugins. Not much plugins here, because I've found most plugins to be useless. Once you've setup your clone, you need to add it to a level. When you
