

Autodesk is pleased to announce the release of Autodesk Factory Design Utilities 2014! It's the ultimate set of tools to plan and build factory equipment. This toolkit includes the infrastructure design and layout tools from the Infrastructure Design Suite, to plan and design factory equipment, as well as the tools for documenting, building and maintaining your civil infrastructure development projects. Visit Autodesk's Factory Design Utilities 2014 download page to get started! Factory Design Utilities is available through the product, design, and manufacturing collection. The price of the product, design, and manufacturing collection subscription is monthly, annually, or for 3 years. Please visit www.autodesk.com/collections/product-design-manufacturing/overview to learn more about the product, design, and manufacturing collection. If some of your users only occasionally use Factory Design Utilities, consider buying tokens to access it for 24 hours at a time. Visit www.autodesk.com/flex to learn more. Product keys are required for installation of Autodesk products and are used to differentiate products that are both sold independently and as part of a product suite. For example, installing AutoCAD 2018 as a point product requires product key 001j1, but installing AutoCAD 2018 from the AutoCAD Design Suite Premium 2018 requires product key 768j1. The same version of AutoCAD is in both software packages but the product key differentiates one package from the other.

If, for whatever reason, you cannot locate your product key, there is another method:

1. using your installation media, (usb key, dvd, download folder, etc.) navigate to the location of the setup.exe file for your Autodesk product.
2. in that folder, look for a file named mid.txt, mid01.txt, mid02.txt or some variation on that name.
3. open this file in Notepad and verify that the product name is what you expected it to be.
4. the first five characters of the part number should also be the product key for that product.
