My sincere advice is that you should make backups, and to download and burn a restore CD to avoid losing any information. I have formatted a couple of times for the sake of completeness, but it was not necessary. Answer:Can we use it on Ios 5.0.0 and higher I am only a few days away from this release and just downloaded the available Mac OS X v9.6.2 binary. Ive been using iTunes v10.1.1 on my MacBook Pro 13" (Mid 2015) for several years and have no problems (at least not to my knowledge). For your older machines you might have no problems. VueScan Pro Mac | World Of Thrillers... Can we use it on Ios 5.0.0 and higher(Mac) without any problem?Is it safe to update iTunes? *(I have a Mac) I'm going to have to disagree with the majority here; I can safely say you need to do a restore from a backup, and also know what version of your Mac OS X you are using. I have formatted a couple of times for the sake of completeness, but it was not necessary. I am only a few days away from this release and just downloaded the available Mac OS X v
